SAFETY DATA SHEET
EFFECTIVE DATE: 8/25/2017

ITEM: 12 Gauge HP Alerter Plus Signal Kit

PART #   UPC
535      077403221714

CONTENTS:
12GA Long Shell (HP) Marine Red Aerial Signal SDS
Fluorescein Dye Marker SDS

SHIPPING INFORMATION
UN0403, Flares, Aerial, 1.4G (ERG 114)
EX2004110275
SAFETY DATA SHEET

1. Product and Company Identification

12 Ga HP (High Performance) Red Aerial Signal

Identified Use: Emergency distress signal

Use Advised Against: Do not use indoors or inside a vehicle

Manufacturers Information
Orion Safety Products
3157 North 500 West
Peru, IN 46970
US 1-800-851-5260
Intl (11) 1-765-472-4375

EMERGENCY CHEMTREC
1-800-424-9300

2. Hazards Identification

GHS Classifications

Explosive Category 1.4 H204
Skin Irritation Category 2 H315
Eye Damage / Irritation Category 1 H318
Carcinogenicity Category 2 H351
STOT - Single Exposure Category 3 H335

GHS Label Elements

Pictograms

Signal Word Danger

Hazard Statements

H204 Fire or projection hazard
H315 Causes skin irritation
H318 Causes serious eye damage
H351 Suspected of causing cancer
H335 May cause respiratory irritation

Precautionary Statements

P103 Keep out of reach of children
P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P232 Protect from moisture
P261 Avoid breathing dust/fume
P264 Wash hands thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P271 Use only outdoors or in a well-ventilated area.
P280 Wear protective eye protection

3. Composition / Information on Ingredients

Note: Due to Confidential Business Information i.e “Trade Secrets”, the exact percentage of each ingredient has not been disclosed. CBI information will be shared with appropriate authorities if circumstances warrant.

4. First Aid Measures

Description of first aid measures

Inhalation If contents are inhaled, remove to fresh air. Watch for signs of allergic reaction. If other symptoms develop, get medical aid immediately.

Skin If contents are contacted, wash with area with soap and water for 15 minutes. Remove contaminated clothing and wash before reuse. Get medical aid if irritation occurs.

Eyes If contents get into eye, flush with plenty of water for at least 15 minutes, occasionally lifting the upper and lower lids. Remove contact lenses if easily possible. Get medical aid immediately.
5. Firefighting Measures

Extinguishing Media: Water deluge

Unsuitable Extinguishing Media: Foam and dry chemical extinguishers and suffocation are ineffective.

Protective Equipment and Precautions for Firefighters: Wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode. Prevent further propagation of fire by spraying unburnt nearby product with water. Combat fire from a sheltered position.

Specific Hazards Arising from the Chemical: Only use outdoors. Use copious amounts of water to extinguish fire. Using small quantities of water on contents/broken shells can cause auto/re-ignition as contents contain magnesium. Use of water on a magnesium fire will generate hydrogen gas that may cause an explosion. Irritating fumes. Flaming projectiles may be ejected during a fire. Trace amounts of lead vapor may be produced (from ignition primer) in a fire situation.

Further information: No data available

6. Accidental Release Measures

Personal Precautions / Protective Equipment / Emergency Procedures:
Do not breathe contents and avoid contact with skin and eyes. Wear flame retardant clothing with long sleeves, dust mask, rubber or nitrile gloves, safety goggles, safety shoes. Avoid friction on the released product. Keep away from ignition sources.

Environmental Precautions:
Prevent dispersion of contents on soil and in water. Prevent contents from spreading or entering into drains, ditches, groundwater or rivers by using appropriate barriers.

Methods for Containment and Clean-up:
Use caution when cleaning up spilled product contents. Remove heat, flames, sparks and other sources of ignition. Use non-sparking tools and equipment. Prevent buildup of electrostatic charges by grounding. Clean spills in a manner that does not disperse dust into the air. Do not absorb in sawdust or other combustible absorbents. Pick up spill for recovery or disposal and place in an approved container. Wash away remainder with plenty of water. Collect wash water for approved disposal. Be very careful - magnesium powder may spontaneously ignite in presence of moisture. Magnesium powder reacts with water, producing flammable hydrogen gas.

7. Handling and Storage

Precautions for Safe Handling:
Use product only in designated launcher – do not attempt to use in 12 gauge shotgun. Point launcher away from body, other people, animals or combustible products when firing. Wear appropriate eye protection during use. Turn face from launcher when firing. Follow instructions on package. Avoid contact with clothing and other combustible materials. Use outdoors only! Do not ignite or launch product inside a vehicle or building. Avoid ingestion of contents and inhalation of smoke. Wash thoroughly after handling. Avoid contact with heat sparks, and flame. Do not disassemble signal.

Conditions for Safe Storage, Including Any Incompatibilities:
Store away from moisture, direct sunlight, heat and incompatible materials. See section 10. Store away from food and beverages. Store away from flammable materials, sources of heat, flame and sparks. Store at ambient temperature.

8. Exposure Controls / Personal Protection

Control parameters:

Exposure Limits:

</tr>
</tbody>
</table>

Exposure controls:

Engineering Controls:
Use product outdoors only! When cleaning up contents, use local and/or general exhaust.

Personal Protective Equipment:

Eye / Face Protection:
Turn face from launcher when firing. Wear safety glasses or goggles during use and when cleaning up spilled contents.

Skin Protection:
None under normal conditions when using product unless prolonged handling is anticipated. When cleaning up spilled contents, wear impervious protective clothing, including gloves, boots, and a lab coat, apron or coveralls, as appropriate. Wash hands and face before eating, drinking or using tobacco products.

Respiratory Protection:
None under normal conditions when using product. A particulate respirator (NIOSH N95 or better filters) may be worn during the cleanup of spilled contents.

General Hygiene:
Use product outdoors away from combustible products. For cleanup of spilled contents, emergency
showers and eye wash stations should be available. Educate and train employees in the safe use and handling of hazardous materials. Maintain good housekeeping and safety practices. Do not let contents accumulate in storage or work areas. Clean spills up promptly.

Product toxicological information

- Acute Toxicity: Not classified – Acute Toxicity Estimate yields oral LD50 over 5000 mg/kg bw 17% unknown
- Skin Irritation / Corrosion: Category 2 – over 0.1% of ingredients classified as a Category 2
- Serious Eye Damage / Irritation: Category 1 – over 0.1% of ingredients classified as a Category 1
- Respiratory / Skin Sensitization: No information found
- Germ Cell Mutagen: No information found
- Carcinogen: Category 2 – over 0.1% of ingredients classified as Category 2 carcinogens
- Reproductive Toxicity: No information found
- STOT – single exposure: Category 3 – respiratory over 20% of ingredients classified as a Category 3 respiratory STOT hazard
- STOT – repeated exposure: No information found
- Aspiration Hazard: No information found

Likely routes of exposure

- Skin, ingestion, inhalation

Symptoms related to the physical, chemical and toxicological characteristics

- Irritation to the eyes will cause watering and redness. Reddening, scaling, and itching are characteristics of skin inflammation. Ingestion of contents may cause gastrointestinal irritation with nausea, vomiting and diarrhea. Inhalation will cause irritation to the lungs and mucus membrane.

Delayed and immediate effects and chronic effects from short and long term exposure

- Absorption of strontium peroxide into the body leads to the formation of methemoglobin which in sufficient concentration causes cyanosis. Onset may be delayed 2 to 4 hours or longer. Prolonged or repeated skin contact with contents may cause dermatitis.

Interactive effects

- No information found

12. Ecological Information

13. Disposal Considerations (for spills and leakage)

Dispose of contaminated product and materials used in cleaning up spills or leaks in the manner approved for pyrotechnic material. Consult appropriate federal, state, and local regulatory agencies to ascertain proper disposal procedures. Open burning is preferred method of disposal for pyrotechnic materials.

4. First Aid Measures

Inhalation
If contents are inhaled, remove to fresh air. Watch for signs of allergic reaction. If other symptoms develop, get medical aid immediately.

Skin
If contents are contacted, wash with area with soap and water for 15 minutes. Remove contaminated clothing and wash before reuse. Get medical aid if irritation occurs.

Eyes
If contents get into eye, flush with plenty of water for at least 15 minutes, occasionally lifting the upper and lower lids. Remove contact lenses if easily possible. Get medical aid immediately.

Ingestion
Get medical aid immediately.

Most important symptoms and effects both acute and delayed:
See section 2 labeling and section 11

Indication of any immediate medical attention and special treatment needed:

No data available

5. Firefighting Measures

Extinguishing Media
Water deluge

Unsuitable Extinguishing Media
Foam and dry chemical extinguishers and suffocation are ineffective.

Protective Equipment and Precautions for Firefighters
Wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode.

Specific Hazards Arising from the Chemical
Avoid dust / air suspensions. As with any organic powder, the contents may be capable of a dust explosion fire.

Further information

No data available
6. Accidental Release Measures

Personal Precautions / Protective Equipment / Emergency Procedures

Do not breathe contents and avoid contact with skin and eyes. Dye will stain / color all exposed areas - wear Tyvek coveralls, goggles or face mask, dust mask / respirator and booties if available. If not, wear clothing with long sleeves, long pant legs, dust mask, rubber or nitrile gloves, safety goggles, and safety shoes when cleaning up contents.

Environmental Precautions

Contents are highly soluble in water and the dust has a great ability to migrate.

Methods for Containment and Clean-up

Place absorbent material onto floor before sweeping. Clean area in a manner so as to minimize dust. Wear gloves, safety glasses/goggles, and full-coverage clothing to minimize exposure and dye effects. For large spills, a dust mask is recommended. Pick up spill for recovery or disposal and place in lidded container. Wash area with soap and plenty of water. Material is completely gone when no additional green color is detected in wash water.

7. Handling and Storage

Precautions for Safe Handling

Contents will stain – handle with caution. Wear appropriate eye protection when using. Follow instructions on package. Avoid ingestion and inhalation of contents. Wash thoroughly after handling. Do not disassemble signal.

Conditions for Safe Storage, Including Any Incompatibilities

Store in a cool, dry place. Store away from food and beverages. Keep at temperature not exceeding: 60 °C (140 °F)

8. Exposure Controls / Personal Protection

5 mg/m3

Exposure controls

Engineering Controls

When cleaning up contents, use local and/or general exhaust.

Personal Protective Equipment

Eye / Face Protection

Wear safety glasses or goggles when cleaning up spilled contents.

Skin Protection

No significant health effects but contents will stain all exposed areas. Wear Tyvek coveralls, rubber or nitrile gloves, and booties if available. If not, wear clothing with long sleeves, long pant legs, rubber or nitrile gloves, and safety shoes when cleaning up contents. Wash hands and face before eating, drinking or using tobacco products.

Respiratory Protection

None under normal conditions when using product. A particulate respirator (NIOSH N95 or better filters) may be worn during the cleanup of spilled contents.

General Hygiene

Educate and train employees in the safe use and handling of hazardous materials. Maintain good housekeeping and safety practices. Do not let contents accumulate in storage or work areas. Clean spills up promptly.

9. Physical and Chemical Properties

Ingredient toxicity / persistence / degradability / bioaccumulation / mobility in soil and water

Aquatic Toxicity
- Sodium Fluorescein – LC50 Oncorhynchus mykiss (rainbow trout) - 1,372 mg/L - 96 h; EC50 - Daphnia pulex (Water flea) - 337 mg/L - 48 h
- Sodium Bicarbonate – LC50 freshwater fish 8250 - 9000 mg/L 96 h ; EC50: freshwater algae 650 mg/L/120h; EC50: 2350 water flea mg/L/48h
- Adipic Acid – LC50 - Brachydanio rerio (zebrafish) >= 1,000 mg/L - 96 h; LC50 - Daphnia magna (Water flea) - 46 mg/L - 48 h; EC50 - Pseudokirchneriella subcapitata (algae) - 59 mg/L - 72 h

Persistence / Degradability
- Sodium Bicarbonate - Soluble in water Persistence is unlikely based on information available
- Adipic Acid – Readily biodegradable

Bioaccumulation / Accumulation
- No information found

Mobility in Environmental Media
- Sodium Bicarbonate - Will likely be mobile in the environment due to its water solubility

13. Disposal Considerations (for spills and leakage)

Dispose of contaminated product, empty container and materials used in cleaning up spills or leaks in a manner approved for this material. Consult appropriate federal, state and local regulatory agencies to ascertain proper disposal procedures. This material is not considered to be a hazardous waste and no special disposal requirements are expected...

Key / Legend:
- TSCA: toxic substance control act – US
- CERCLA: comprehensive environmental response, compensation and liability act – US
- CWA: clean water act – US
- CAA: clean air act – US
- SARA: superfund amendments and reauthorization act – US
- PROP 65:California’s Proposition 65 list
- WHMIS: workplace hazardous materials information system - Canada
- DSL: Domestic Substances List - Canada
- WGK: water hazard classes - Germany
