SAFETY DATA SHEET

Effective Date: JULY 2019

ITEM: Coastal Alerter Kit

PART # 572          UPC 077403105724

CONTENTS
12 Ga HP Red Aerial Signal SDS

SHIPPING INFORMATION
UN0403, Flares, aerial, 1.4G (ERG 114)
EX2004110275
SAFETY DATA SHEET

1. Product and Company Identification

12 Ga HP (High Performance) Red Aerial Signal

Identified Use: Emergency signal Use Advised Against: Do not use indoors or inside of a vehicle.

Manufacturer’s Information: Orion Safety Products
3157 N 500 W Peru, Indiana 46970
US 1-800-851-2560
Int’l (11) 1-765-472-4375

2. Hazards Identification

GHS Classifications
Explosive Category 1.4
Skin Irritation Category 2
Eye Irritation Category 1
Carcinogenicity Category 2
STOT-Single Exposure Category 3

GHS Label Elements
Hazard Statements
H204 Fire or projection hazard
H315 Causes skin irritation
H318 Causes serious eye damage
H331 Suspected of causing cancer
H335 May cause respiratory irritation

Signal Word Danger

Precautionary Statements
P102 Keep out of reach of children.
P103 Read carefully and follow all instructions.
P204 No smoking
P232 Protect from moisture
P261 Avoid breathing dust/fumes.
P264 Wash hands thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P271 Use only outdoors.
P280 Wear protective eye protection.

Pictograms

Hazard Not Otherwise Classified (HNOC): none

3. Composition / Information on Ingredients

Note: Due to Confidential Business Information, “Trade Secrets”, the exact percentage of each ingredient has not been disclosed. CBI information will be shared with appropriate authorities if circumstances warrant.
4. First Aid Measures

**Description of first aid measures**

**Inhalation**
If contents are inhaled, remove to fresh air. Watch for signs of allergic reaction. If other symptoms develop, get medical aid immediately.

**Skin**
If contents are contacted, wash with area with soap and water for 15 minutes. Remove contaminated clothing and wash before reuse. Get medical aid if irritation occurs.

**Eyes**
If contents get into eyes, flush with plenty of water for at least 15 minutes, occasionally lifting the upper and lower lids. Remove contact lenses if easily possible. Get medical aid immediately.

**Ingestion**
Get medical aid immediately.

**Most important symptoms and effects both acute and delayed**

See section 2 labeling and section 11.

**Indication of any immediate medical attention and special treatment needed**
No data available

5. Firefighting Measures

**Extinguishing Media**
Water deluge

**Unsuitable Extinguishing Media**
Foam and dry chemical extinguishers and suffocation are ineffective.

**Protective Equipment and Precautions for Firefighters**
Wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode. Prevent further propagation of fire by spraying unburnt nearby product with water. Combat fire from a sheltered position.

**Specific Hazards Arising from the Chemical**
Only use outdoors. Use copious amounts of water to extinguish fire. Using small quantity of water on contents / broken shells can cause auto / re-ignition as contents contain magnesium. Use of water on a magnesium fire will generate hydrogen gas that may cause an explosion. Irritating fumes. Flaming projectiles may be ejected during a fire. Trace amounts of lead vapor may be produced (from ignition primer) in a fire situation.

**Further Information**
No data available

6. Accidental Release Measures

**Personal Precautions / Protective Equipment / Emergency Procedures**
Do not breathe smoke or contents. Avoid contact with skin and eyes. Wear flame retardant clothing with long sleeves, dust mask, rubber or nitrile gloves, safety goggles, safety shoes when cleaning up contents. Avoid friction on the released product. Keep away from ignition sources.

**Environmental Precautions**
Prevent dispersion of contents on soil and in water. Prevent contents from spreading or entering into drains, ditches, groundwater or rivers by using appropriate barriers.

**Methods for Containment and Clean-up**
Use caution when cleaning up spilled contents. Remove heat, flames, sparks and other sources of ignition. Use non-sparking tools and equipment. Prevent buildup of electrostatic charges by grounding. Clean spills in a manner that does not disperse dust into the air. Do not absorb in sawdust or other combustible absorbents. Pick up spill for recovery of disposal and place in an approved container. Wash away remainder with plenty of water. Collect wash water for approved disposal. Be very careful – magnesium powder may spontaneously ignite in presence of moisture. Magnesium powder reacts with water, producing flammable hydrogen gas.

7. Handling and Storage

**Precautions for Safe Handling**
Use product only in designated launcher – do not attempt to use in 12 gauge shotgun. Point launcher away from body, other people, animals or combustible products when firing. Wear appropriate eye protection during use. Turn face from launcher when firing. Follow instructions on package. Avoid contact with clothing and other combustible materials. Use outdoors only! Do not ignite or launch product inside a vehicle or building. Avoid ingestion of smoke and inhalation of contents. Wash thoroughly after handling. Avoid contact with heat sparks, and flame. Do no disassemble signals.

**Conditions for Safe Storage, Including Any Incompatibilities**
Store in a dry place away from direct sunlight, heat and incompatible materials. See section 10. Store away from food and beverages. Store away from flammable materials, sources of heat, flame and sparks. Store at ambient temperature.

8. Exposure Controls / Personal Protection

</tbody>
</table>
Exposure Controls
Use product outdoors only! When cleaning up contents, use local and/or general exhaust.

Engineering Controls

Personal Protective Equipment
Eye / Face Protection
Turn face from launcher when firing. Wear safety glasses or goggles during use and when cleaning up spilled contents.

Skin Protection
None under normal conditions when using product unless prolonged handling is anticipated. When cleaning up spilled contents, wear impermeable protective clothing, including gloves, boots, and a lab coat, apron or coveralls as appropriate. Wash hands and face before eating, drinking, or using tobacco products.

Respiratory Protection
None under normal conditions when using product. A particulate respirator (NIOSH N195 or better filters) may be worn during the cleanup of spilled contents.

General Hygiene
Use product outdoors away from combustible products. For cleanup of spilled contents, emergency showers and eye wash stations should be available. Educate and train employees in the safe use and handling of hazardous materials. Maintain good housekeeping and safety practices. Do not let contents accumulate in storage or work areas. Clean spills up promptly.

9. Physical and Chemical Properties

Appearance (color, physical form, shape): Grey powder
pH: No data available
Boiling Point / Range: Not applicable
Vapor Pressure: Not applicable
Odor: No data available
Flammability: No data available
Partition Coefficient: No data available
Auto Ignition Temperature: No data available

Chemical Stability: Stable
Reactivity: No information available

Conditions to Avoid
Excessive temperatures, moisture, acids, and ignition sources

10. Stability and Reactivity

Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

Hazardous Decomposition Products
Strontium Oxides, Carbon Monoxide and Dioxide, Nitrous Oxides, Magnesium Hydroxides and Oxides.

11. Toxicology Information

Product toxicological information

Acute Toxicity Not classified – Acute Toxicity Estimate yields oral LD50 over 5000 mg/kg bw 17% unknown
Skin Irritation / Corrosion Category 2 – over 0.1% of ingredients classified as a Category 2 skin irritant
Serious Eye Damage / Irritation Category 1 – over 0.01% of ingredients classified as a Category 1 eye irritant
Respiratory / Skin Sensitization No information found
Germ Cell Mutagen No information found
Carcinogen Category 2 – over 0.1% of ingredients classified as a Category 2 carcinogens
Reproductive Toxicity No information found
STOT – single exposure Category 3 – respiratory over 20% of ingredients classified as a Category 3 respiratory STOT hazard
STOT – repeated exposure No information found
Aspiration Hazard No information found
Likely routes of exposure Skin, ingestion, inhalation
Symptoms related to the physical, chemical and toxicological characteristics Irritation to the eyes will cause watering and redness. Reddening, scaling, and itching are characteristics of skin inflammation. Ingestion of contents may cause gastrointestinal irritation with nausea, vomiting and diarrhea. Inhalation will cause irritation to the lungs and mucus membrane. Absorption of strontium peroxide into the body leads to the formation of methemoglobin which in sufficient concentration causes cyanosis. Onset may be delayed 2 to 4 hours or longer.
Delayed and immediate effects and chronic effects from short and long term exposure Prolonged or repeated skin contact with contents may cause dermatitis.
Interactive effects No information found
12. Ecological Information

Ingredient toxicity / persistence / degradability / bioaccumulation / mobility in soil and water

Aquatic Toxicity
Strontium Nitrate: Acute toxicity - Fishes, Gasterosteus aculeatus, LC100, 9.615 mg/l; Chronic toxicity - Fishes, Gasterosteus aculeatus, LC100, 2.912 mg/l
Magnesium: LC50 1355 mg/l fish

Persistence / Degradability
No information found

Bioaccumulation / Accumulation
No information found

Mobility in Environmental Media
Strontium Nitrate: Water: considerable solubility and mobility; Soil/sediments non-significant adsorption

Other adverse effects
No information found

13. Disposal Considerations (for spills and leakage)
Dispose of contaminated product and materials used in cleaning up spills or leaks in the manner approved for pyrotechnic material. Consult appropriate federal, state, and local regulatory agencies to ascertain proper disposal procedures. Open burning is preferred method of disposal for pyrotechnic materials.
