Signal Word Warning

Precaut	ionary Statements	P370	In case of fire; use water deluge.		
P102	Keep out of reach of children.	P301/315	IF SWALLOWED: Get immediate medical advice /attention.		
P103	Read carefully and follow all instructions	P302/352	IF ON SKIN: Wash with plenty of soap and water.		
P210	Keep away from heat/sparks/open flames/hot surfaces.	P304/340/342	IF INHALED: Remove victim to fresh air and keep at rest in a position		
F210	No smoking		comfortable for breathing. If experiencing respiratory symptoms: Call a		
P232	Protect from moisture		POISON CENTER or doctor/physician.		
P261	Avoid breathing dust/fumes.	P305/338/351	IF IN EYES: Rinse cautiously with water for several minutes. Remove		
P264	Wash hands thoroughly after handling.		contact lenses, if present and easy to do. Continue rinsing.		
P270	Do not eat, drink or smoke when using this product.	P332/313	If skin irritation or rash occurs, get medical advice/attention.		
P271	Use only outdoors.	P501	Dispose of contents / container in accordance with local and national		
P280	Wear protective eye protection.		Regulations.		

Hazards Not Otherwise Classified (HNOC): produces hot flame

3. Composition / Information on Ingredients

Component	CAS#	EINCS#	Percentage
Strontium Nitrate	10042-76-9	233-131-6	<60%
Sulfur	7704-34-9	231-722-6	<25%
Potassium Nitrate	7757-79-1	231-818-8	<25%
Polyvinyl Chloride	9002-86-2	200-831-0	<5%
Paraffinic Oil	64742-54-7	232-384-2	<5%
Strontium Peroxide	1314-18-7	215-224-6	<2%
Potassium Chlorate	3811-04-9	231-100-4	<2%

Note: Due to Confidential Business Information, "Trade Secrets", the exact percentage of each ingredient has not been disclosed. CBI information will be shared with appropriate authorities if circumstances warrant.

4. First Aid Measures

Description of first aid measures

Inhalation If contents are inhaled, remove to fresh air. Watch for signs of allergic reaction. If other symptoms develop, get medical aid immediately.

Skin If contents are contacted, wash with area with soap and water for 15 minutes. Remove contaminated clothing and wash before reuse. Get medical aid if irritation occurs.

Eyes If contents get into eyes, flush with plenty of water for at least 15 minutes, occasionally lifting the upper and lower lids. Remove contact lenses if easily possible. Get medical aid immediately.

Ingestion Get medical aid immediately.

Most important symptoms and effects both acuteand delayed Indication of any immediate medical attention and special treatment needed See section 2 labeling and section 11

No data available

5. Firefighting Measures

Extinguishing Media Water deluge Unsuitable Extinguishing Media Foam and dry chemical extinguishers and suffocation are ineffective.

Protective Equipment and

Wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode. Prevent further propagation of fire by spraying unburnt

Precautions for Firefighters in the pressure demand or other positive pressure mode. Prevent further propagation of fire by spraying unburn nearby product with water. Combat fire from a sheltered position.

nearby product with water. Combat fire from a sneitered position.

Specific Hazards Arising Only use outdoors. Flame and sparks are ejected out the open end of the flare when it functions. Do not point flare at any

from the Chemical part of the body or flammable material.

Further Information No data available

6. Accidental Release Measures

Personal Precautions / Protective Equipment / Emergency Procedures

Do not breathe smoke or contents. Avoid contact with skin and eyes. Wear flame retardant clothing with long sleeves, dust mask, rubber or nitrile gloves, safety goggles, safety shoes when cleaning up contents. Avoid friction on the released product. Keep away from ignition sources.

Environmental Precautions

Prevent dispersion of contents on soil and in water. Prevent contents from spreading or entering into drains, ditches, groundwater or rivers by using appropriate barriers.

Methods for Containment and Clean-up

Use caution when cleaning up spilled contents. Remove heat, flames, sparks and other sources of ignition. Use non-sparking tools and equipment. Prevent buildup of electrostatic charges by grounding. Clean spills in a manner that does not disperse dust into the air. When cleaning up contents, use local and/or general exhaust. Clean up avoiding dust generation and place in a well identified container. Do not absorb in sawdust or other combustible absorbents. Wash away remainder with plenty of water. Collect wash water for approved disposal.

7. Handling and Storage

Precautions for Safe Handling

Hold and point signal away from body when igniting. Hold signal downwind when burning. Avoid breathing smoke. Avoid contact with clothing and other combustible materials. Use outdoors only! Do not ignite or burn product inside a vehicle, boat cabin or building. Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Avoid contact with skin and eyes. Avoid contact with heat, sparks, and flame. Signals should be allowed to burn to completion.

Conditions for Safe Storage, Including Any Incompatibilities

Store in a dry place away from direct sunlight, heat and incompatible materials. Store away from food and beverages. Store away from flammable materials, sources of heat, flame and sparks. Store at ambient temperature. Do not store partially burned signals in a vehicle, boat, closed container, warehouse, or any other building.

8. Exposure Controls / Personal Protection

Control Parameters

Exposure Limits OSHA PEL ACGIH TLV Strontium Nitrate Not established Not established Not established Not established Sulfur Potassium Nitrate Nuisance dust, 15 mg/m3 Nuisance dust, 15 mg/m³ No known hazardous components above No known hazardous components above Polyvinyl Chloride regulatory thresholds in this product regulatory thresholds in this product Paraffinic Oil 5 mg/m³ TWA 5 mg/m³ Strontium Peroxide 15 mg/m³ 15 mg/m³ Potassium Chlorate Not Established Not Established

Exposure Controls

Eye / Face Protection Safety glasses or goggles

Skin Protection None under normal conditions when using product unless prolonged handling is anticipated. Impervious protective

clothing, including gloves, boots, and a lab coat, apron or coveralls, as appropriate, when cleaning up spilled product.

Wash hands and face before eating, drinking or using tobaccoproducts

Respiratory Protection None under normal conditions when using product. A particulate respirator (NIOSH t N95 or better filters)

may be worn during the cleanup of spilled contents.

General Hygiene

Use product outdoors away from combustible products. For cleanup of spilled contents, emergency showers and eye wash stations should be available. Educate and train employees in the safe use and handling of hazardous materials.

wash stations should be available. Educate and train employees in the sare use and handling of hazardous materials. Maintain good housekeeping and safety practices. Do not let contents accumulate in storage or work areas. Clean

spills up promptly.

9. Physical and Chemical Properties

Appearance (color, physical form, shape): Grey powder

No data available Melting Point: No data available Solubility: No data available Boiling Point / Range: Freezing Point: Not applicable Not applicable **Evaporation Rate:** Not applicable Vapor Pressure: Not applicable Specific Gravity: Not applicable Vapor Density: Not applicable No data available Odor Threshold: No data available Flash Point: No data available Odor: Flammability: No data available Flammability Limits: No data available Relative Density: No data available Partition Coefficient: No data available Viscosity: No data available

Auto Ignition Temperature: No data available Decomposition Temperature: No data available

10. Stability and Reactivity

Chemical Stability: Stable Reactivity: No information available Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

Combitions to Avoid Incompatible Materials

Combustible materials, heat, flames, sparks and other sources of ignition. Moisture.

Incompatible Materials

Strong acids, strong fuels, ammonia salts and strong bases.

Strong acids, strong fuels, ammonia salts and strong bases.

Carbon monoxide, carbon dioxide, sulfur oxides and nitrogen oxides.

11. Toxicology Information

Ingredient acute toxicity information

Toxicology Oral LD50 Skin LD50 LC50 Strontium Nitrate Rat: 1892 mg/kg Not stated Not stated Rat:>2020 mg/kg Sulfur Rat: 5050 mg/kg Rat:>5.49 mg/L air concentration Potassium Nitrate Rat: 3750 mg/kg Not stated Not stated No known hazardous components No known hazardous components Polyvinyl Chloride Rat: >5000 mg/kg above regulatory thresholds above regulatory thresholds Paraffinic Oil Rat: >2000 mg/kg Rat: >2000 mg/kg No information found Strontium Peroxide Not Available Not Available Not Available Potassium Chlorate Rat 1870 mg/kg 2000 mg/kg (rabbit) No information found

Product toxicological information

Acute Toxicity
Skin Irritation / Corrosion
Serious Eye Damage / Irritation
Respiratory / Skin Sensitization
Germ Cell Mutagen
Carcinogen
Reproductive Toxicity

Not classified – Acute Toxicity Estimate yields oral LD₅₀ over 5000 mg/kg bw
Category 2 – over 10% of ingredients classified as a Category 2 skin irritant
Category 2A – over 10% of ingredients classified as a Category 2A eye irritant
Not classified (Based on available data, the classification criteria are not met)
Not classified (Based on available data, the classification criteria are not met)
Not classified (Based on available data, the classification criteria are not met)
Not classified (Based on available data, the classification criteria are not met)

Reproductive Toxicity
STOT – single exposure
Not classified (Based on available data, the classification criteria are not met)
Not classified (Based on available data, the classification criteria are not met)
STOT – repeated exposure
Category 3 - respiratory-over 10% of ingredients classified as a Category 3 respiratory STOT hazard

Aspiration Hazard Not classified (Based on available data, the classification criteria are not met)

Aspiration nazaro Not classified (based on available data, the classification chiena are not me

Likely routes of exposure Skin, ingestion, inhalation

Symptoms related to the physical, chemical and toxicological characteristics Contents irritating to eyes due to chemical and physical properties of the mixture. Ingestion of contents may cause gastrointestinal irritation with nausea, vomiting and diarrhea. Individuals with known allergies to sulfide drugs may also have allergic reactions to elemental sulfur.

Delayed and immediate effects and chronic effects from short and long term exposure membrane. Prolonged or repeated skin contact with contents may cause dermatitis.

International fields No information found

Interactive effects No information found

12. Ecological Information

Ingredient toxicity / persistence / degradability / bioaccumulation / mobility in soil and water

Aquatic Toxicity Potassium Chlorate: fish: LC50 oncorhynchus mykiss (rainbow trout) 1750 mg/l – 96 hr, EC50 daphnia

magna (water flea) 1093 mg/l 24 hr

Strontium Nitrate: Acute toxicity - Fishes, Carassius auratus, LC100, 9,615 mg/l; Chronic toxicity - Fishes,

Gasterosteus aculeatus, LC100, 2.912 mg/l

Sulfur: Toxicity to fish LC50 – Oncorhynchus mykiss (rainbow trout) - > 180 mg/l – 96 h Toxicity to dapnia

and other aquatic invertebrates: EC50 – Daphnia magna (Water flea) -> 5,000 mg/l – 48 h

Persistence / Degradability No information found Bioaccumulation / Accumulation No information found

Mobility in Environmental Media

Strontium Nitrate: Water:: considerable solubility and mobility; Soil/sediments non-significant adsorption

Other adverse effects No information found

13. Disposal Considerations (for spills and leakage)

Dispose of contaminated product and materials used in cleaning up spills or leaks in the manner approved for pyrotechnic material. Consult appropriate federal, state and local regulatory agencies to ascertain proper disposal procedures. Open burning is the preferred method of disposal for pyrotechnic materials. Allow flares to burn
